Smart Energy. Clean Energy.™

HYDRONIC TECHNICIAN Job Description

Energy 1 is hiring a FT entry-level Hydronic Technician for high-end residential installations to join our Bozeman, Montana team. Report to the Lead for daily responsibilities ensuring projects stay on schedule, and for the layout and rough-in on the job.

Experience preferred but not necessary and tools of the trade will be required. Must be organized and dependable.

Specific Job Duties

- Communicate schedule/needs/materials w/ Lead
- Keep job site clean and organized
- Layout and rough-in on the job
- Aware of daily safety needs/requirements
- Maintenance/cleanliness of vehicles/trailers

Reporting

- Tech reports to Project Lead

Energy 1 offers 4 x 10-hr shifts and competitive pay. We work hard/play hard and are family friendly with excellent benefits. Get paid to get certified - Energy 1 exclusively offers the only Certified Hydronic Technician Apprenticeship in the State of Montana, and participation in this program is paid for by the company.
